SRI KANCHI KAMAKOTI MEDICAL TRUST

**EXPANDING HORIZONS
IN EYE HEALTH**

ANNUAL REPORT 2024 - 2025

EXPANDING HORIZONS
IN EYE HEALTH

It is the Divine Sankalpa of the Sankaracharyas
which has shaped our Institution over the past **49 years.**

For the past 49 years, the divine Sankalpa (will) of the revered Sankaracharyas has been the guiding force behind our institution.

Their spiritual vision and blessings have shaped our journey, inspiring a deep commitment to compassionate service, excellence in eye care, and the upliftment of communities across the nation. With their continued grace, we remain dedicated to our mission of eradicating avoidable blindness.

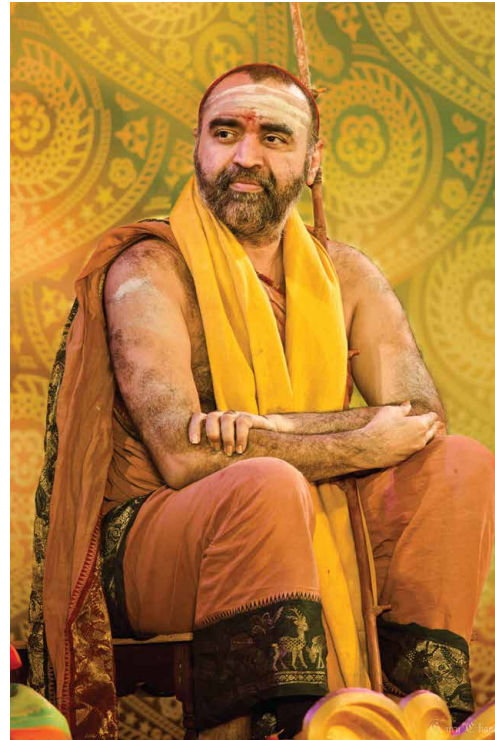

EXPANDING HORIZONS IN EYE HEALTH

Dear Visionaries,

Growth and Excellence instil life into an Organisation.

We at Sankara have been exercising these two value added initiatives right from the beginning.

Expanding and widening our horizon has always been a priority for us.

Towards expanding our horizons, we have spread across the different states and regions of India with 14 Hospitals. We have reached out to more and more needy patients in different regions. In the process, we have made sure that the infrastructure created is world class.

Simultaneously, we have ensured that the human resource, both Technical and Administrative are groomed to perfection incorporating the Sankara work culture.

In our zest to excel, our focus is patient delight. In order to achieve this goal, people are the mainstay. When we say people, we refer to our team Sankara.

Recognising their role, empowering them to execute, give them the space required, help them in solving problems and building the bondage and making them as a strong and vibrant team; it is an ongoing exercise.

If every team member at Sankara always remembers with conviction that he or she has a role to play in this Mission and their role is as important as all others, with a sense of pride they will continue to excel in whatever they are doing.

Cumulative effect of the individual contribution of every team member will ultimately take the Institution to the highest level.

Our Best wishes to all of you to enjoy your work and excel.

Dr. S.V. Balasubramaniam
Chairman

Dr. R.V. Ramani
Founder & Managing Trustee

Dr. Radha Ramani
Co-Founder

Letter from the Presidents

This year has been a testimony to Sankara's commitment to reaching new frontiers in eye health, blending tradition and innovation with a vision for impact and inclusion.

Sankara Eye Foundation India has continued to strengthen the fundamentals of eye care - from rigorous infection control protocols and ethical practice reaffirmations to structured staff training and certification programmes, ensuring patient safety across every centre. The inauguration of the RJ Sankara Eye Hospital in Varanasi, graced by Prime Minister Narendra Modi, stands as a benchmark, symbolising our drive to expand quality eye care to new geographies. Memorable moments include the Prime Minister's special mention of our daily beneficiary numbers and the hospital's role in expanding better vision and employment opportunities in the region.

In Shivamogga, our new city centre was opened, providing greater accessibility to advanced eye care while Vision Centres and the Gift of Vision Programme extended their reach to underserved communities. Through this integrated approach, we have brought high-quality, free surgery to thousands in rural India.

Innovation remains integral to our culture, with the new Sankara Centre for Innovation at Coimbatore providing an impetus towards the same. We also structured the Sankara Research Office under the leadership of Dr T R Raju, to streamline, support, and scale research.

Collaborations with Microsoft Research, IIT Bhubaneswar, and the University of Bonn have accelerated development of tools like the CataractBot, enhancing surgical outcomes and clinical decision support system. We have also introduced a simulator based training system for our postgraduates and fellows. This expands their ability to be prepared while operating.

Our senior colleagues, such as Dr JK Reddy and Dr Mahesh P Shanmugam, received national recognition for exemplary contributions. Many of our senior colleagues were recognized by organisations including Association of Community Ophthalmology India (ACOIN) and the Association of National Board Accredited Institutions (ANBAI).

Dr. Kaushik Murali
President - Medical
Administration, Quality & Training

With a rapidly aging population and a growing burden of lifestyle-related diseases such as diabetes, the prevalence of cataract, refractive error, glaucoma, and diabetic retinopathy continues to rise. To combat this, expanding access to early screening and affordable interventions must remain a national priority.

Our focus is shifting from curative care to community-based preventive strategies that integrate eye health into primary healthcare systems. This proactive approach ensures that conditions are detected and treated early—before they lead to irreversible vision loss.

Advancements in AI-driven diagnostics, tele-ophthalmology, and portable imaging technologies are revolutionizing eye care accessibility. These innovations allow even remote towns and rural communities to benefit from expert consultations and accurate diagnoses through connected, real-time platforms. The integration of digital tools through our AI-enabled Vision Centres, combined with robust patient data management systems, is enhancing continuity of care and improving patient outcomes.

To ensure these advances translate into widespread impact, we are investing in the training and capacity-building of ophthalmologists, optometrists, vision technicians, and healthcare administrators. Through collaborative fellowships, skill enhancement programs, and simulation-based learning, we aim to build a new generation of highly skilled eye health professionals equipped to serve both urban and rural populations.

Sustained progress in eye care requires strong collaboration between government programs and private sector innovation. Strategic partnerships with leading corporates have enabled us to scale efficiently across states, leveraging both resources and reach.

India's goal must now evolve—from eliminating preventable blindness to promoting eyecare equity: ensuring every citizen, regardless of geography or income, has timely access to quality visual care.

As a network, our hospitals remain deeply committed to this vision—combining compassionate service, clinical excellence, and transformative technology to illuminate more lives every year.

Mr. Bharath Balasubramaniam

President - Operations &
Administration

Eyes of Hope

Twelve-year-old Munishwaran was born with low vision in both eyes. He'd never been able to see his mother's face or the word around him clearly.

With early rehabilitation and easily available healthcare, Munishwaran's life is now full of endless opportunities.

His parents and teachers never knew that a simple surgery could restore his sight.

He was diagnosed with unilateral vision impairment in his left eye and a cataract in his right, leaving him completely blind in the left eye and partially sighted in the right eye. However, the doctors confirmed it could be treated with surgery.

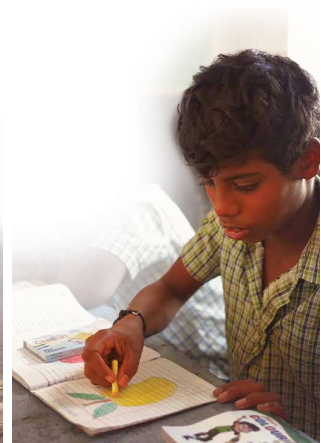

Everything changed when a visit to the Titan Ltd-supported Vision Centre led to a diagnosis and support through the Rainbow Eye Screening program by Sankara Eye Hospital.

His teachers were astonished when he managed to win a government-organised drawing competition at the school.

Now he dreams of being a police officer and also ride a bicycle confidently across the village.

Post-op, he opened his eyes and was now seeing the world, with everything seeming as new! He took his first independent steps, played with his friends, and found enjoyment in drawing.

Meet Prabhakar: 50-year-old autorickshaw driver from Takkellapadu, Andhra Pradesh. He has been driving for more than 30 years.

With his eyesight corrected and his wife no longer forced to work, he now looks ahead with hope and determination.

In March 2024, he realised that the road in front of him appeared blurry. He soon struggled to drive at night and was dreading causing accidents.

His wife, Nagamani, insisted that he go for treatment. A private hospital had diagnosed him with cataracts but quoted ₹16,500 for surgery, which he could not afford.

Nagamani began to work as a daily wage labourer to support the family.

Meanwhile, Prabhakar suffered with everyday chores and depended on his sons.

After months of difficulty, a neighbour informed them about a free eye camp supported by Tata Capital Ltd. Initially sceptical, Prabhakar was relieved to learn it was genuine.

Sankara Eye Hospital, Guntur, scheduled his surgery at no cost. Though nervous, he found comfort in the nurses and other patients who reassured him.

The following day, his bandages were taken off, and he saw a bright light right away.

His vision was completely restored within a month.

Before surgery, Prabhakar's daily income was ₹500-700. Now, he earns ₹1,000, giving him confidence to repay all his loans.

Grateful to the hospital's treatment, he now actively encourages fellow auto drivers and passengers to get their eye treatments at Sankara Eye Hospital, Guntur.

HUMAN RELATIONS

Nurturing The Cornerstone of Our Vision

Our People: The Living Embodiment of Sankara's Mission

At Sankara, we recognize our workforce as the vital cornerstone of our organizational vision—akin to the retina in human sight. Our employees transform our aspirations into tangible impact, bringing clarity and purpose to every endeavor. The Human Relations (HR) function serves as the crucial conduit, channeling essential resources, compassionate support, and strategic guidance throughout our ecosystem.

Through meticulously crafted initiatives spanning talent acquisition, skill enhancement, workplace inclusivity, and digital transformation, we continuously strengthen the foundation that makes Sankara's vision both powerful and sustainable.

Leadership Excellence: The "I AM SANKARA" Initiative

The landmark "I AM SANKARA" Leadership Development Program brought together Functional and Unit Heads for an intensive two-day immersion at our Coimbatore campus.

This transformative experience equipped our leadership cohort with advanced frameworks for collaborative problem-solving, breakthrough innovation, and strategic foresight—essential competencies for steering Sankara toward its ambitious future trajectory.

Value-Centered Culture: The SEVA Training Paradigm

Our signature SEVA training program—a comprehensive 10-hour immersive experience—has been extended across all employee levels, embedding our foundational principles of Service, Empathy, Values, and Adaptability into the organizational fabric.

This multi-dimensional learning journey encompasses:

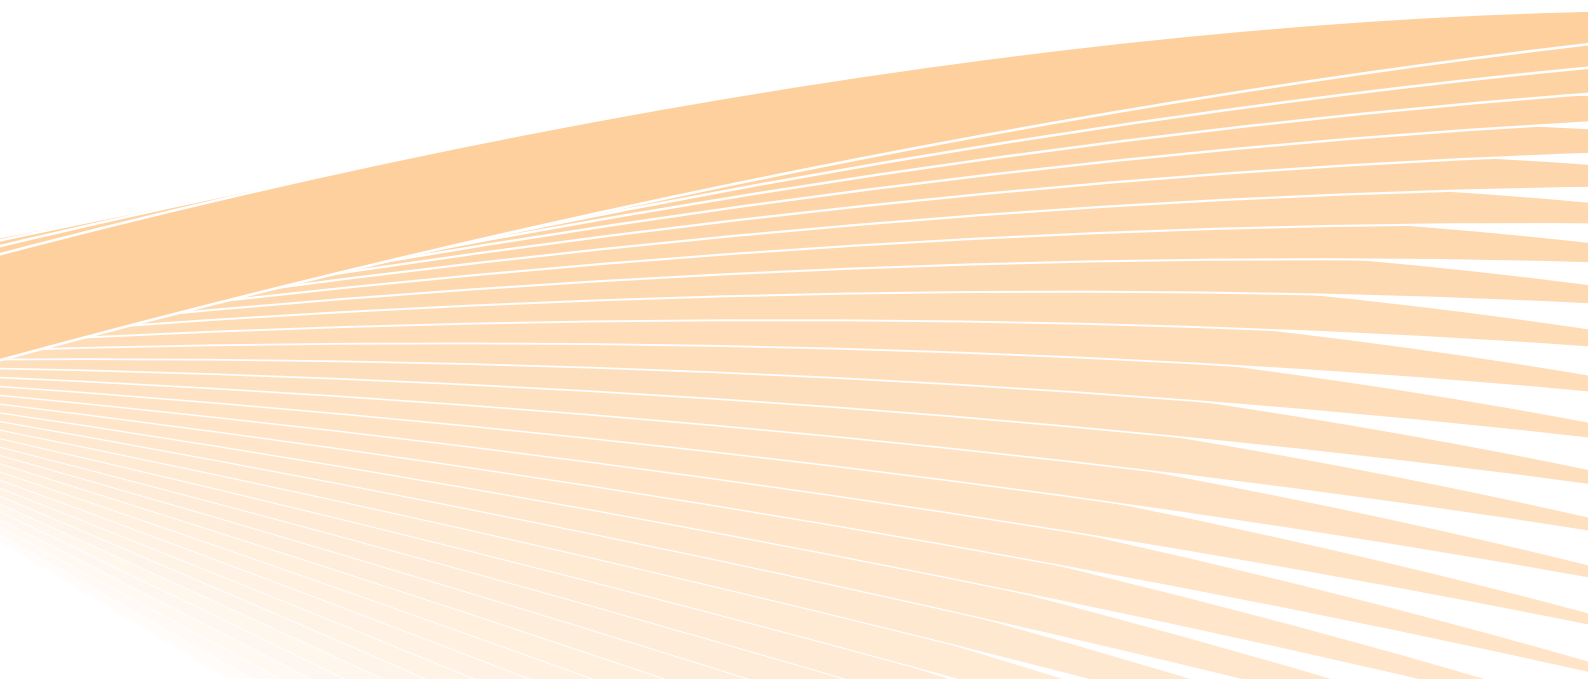

- Compassionate Service Delivery
- Empathetic Quality Care
- Impact-Driven Communication
- Patient-Centered Sensitivity
- Positive Healthcare Engagement

This initiative ensures that Sankara's values transcend abstract concepts to become living practices that define every patient interaction and colleague engagement.

External Recognition: Great Place to Work Certification

Sankara's unwavering commitment to creating an exceptional workplace environment received prestigious validation through the "Great Place to Work" certification.

This rigorous assessment, measuring both employee experience and organizational people practices, affirmed the strong foundation of trust, genuine pride, and authentic camaraderie that characterizes the Sankara experience.

Technology-Powered Excellence:

AI-Enhanced Performance Management

In a pioneering advancement for the healthcare sector, Sankara implemented an AI-powered Performance and Competency Review System (PCRS), setting new benchmarks for appraisal transparency, quality assessment, and productivity enhancement.

This innovative platform features voice-enabled self-evaluation capabilities, effectively eliminating language barriers while optimizing operational efficiency without compromising on accuracy or inclusivity.

Our People: The Living Embodiment of Sankara's Mission

Women Empowerment: Celebrating Our Backbone

With women constituting over 60% of our workforce, their invaluable contributions and resilient spirit form the backbone of Sankara's success story. Our Women's Day celebrations featured a compelling visual narrative highlighting the diverse roles and remarkable impact of our female colleagues across all operational units.

Future-Forward Talent: The Management Trainee Program

Our prestigious Management Trainee program continues to attract exceptional graduates from India's premier educational institutions. These bright minds bring fresh perspectives and innovative thinking while benefiting from comprehensive cross-functional exposure designed to cultivate the next generation of healthcare leaders.

Community Engagement: Extending Our Vision Beyond Walls

The HR team's adoption of five neighboring villages exemplifies Sankara's commitment to social responsibility. Our recent engagement at Theethipalayam Village created meaningful connections through interactive sessions with children, nutritional support initiatives, and community recognition programs—extending our care beyond institutional boundaries.

Safety Assurance: Unwavering Vigilance for Well-being

Employee safety remains non-negotiable at Sankara. Our comprehensive security protocol includes regular surveillance audits, maintenance of advanced security systems, and this year's significant enhancement through the deployment of specialized security personnel across operational units. These measures reflect our absolute commitment to creating a secure environment where excellence can flourish.

Sankara Academy of Vision

Quantifying Excellence in Eye Health Education

Sankara Academy of Vision (SAV) continues to set benchmarks in eye care education by transforming aspiring professionals into skilled, compassionate, and future-ready leaders. In 2024–2025, SAV's influence expanded across specialties and geographies, blending academic rigor with digital innovation and translational research. Whether in simulation labs or outreach clinics, SAV is equipping India's next generation of eye care professionals to serve, innovate, and lead.

2024–2025 was a year of distinction for Sankara Academy of Vision, with numerous accolades recognizing the exceptional contributions of our faculty, clinicians, and learners across India.

Dr. Mahesh P. Shanmugam, Head of Vitreoretina & Ocular Oncology, received two prestigious honors: the **S.S. Badrinath Oration Award** from the Vitreoretinal Society of India and the **Prof. T. Gopinatha Menon Memorial Oration** from the Cochin Ophthalmic Club.

Dr. J.K. Reddy, Director – Technical & Innovation, was conferred the **Dr. Joseph Gnanadickam Oration Medal** by the **Tamil Nadu Ophthalmological Association**, recognizing his enduring impact in ophthalmic education and research.

Dr. Kaushik Murali, President – Medical Administration, was awarded the **Gold Medal** by the **Bombay Ophthalmologists' Association** for his leadership in education and eye care innovation.

In addition to these honors, over 60 awards were conferred upon our faculty, fellows, and students at national and international platforms—ranging from best paper and poster presentations to teaching excellence and innovation recognitions.

SAV's efforts were consistently celebrated across the academic and clinical spectrum. This year was not just about numbers—it was about impact, inclusion, and ingenuity.

As eye care continues to grow in complexity and scale, Sankara Academy of Vision remains at the forefront—empowering professionals to serve where they are needed most, respond to emerging challenges with innovation, and lead with integrity in advancing vision care across the country.

Building Clinical Capacity:

The heart of Sankara Academy of Vision lies in its unwavering commitment to building capacity in eye care through structured and inclusive learning. In 2024–2025, we saw remarkable momentum in admissions across Ophthalmology, Optometry, and Allied Health Programs. From super-specialty fellowships to Optometry internships, every program was designed to offer hands-on exposure, critical thinking, and leadership development.

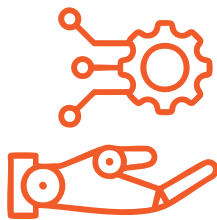

- This year, 117 ophthalmology fellows, 24 DNB residents, and 114 undergraduate Optometry students were admitted across our units. In addition, we welcomed 97 postgraduate Optometry students, 124 interns, 38 Optometry fellows, 152 diploma students, and 30 clinical observers—a diverse and driven cohort trained to respond to the ever-evolving needs of vision care.
- We proudly launched our first fellowship program at Sankara Eye Hospital, Hyderabad, starting with two cataract surgery training seats, furthering our geographic and clinical footprint. Our reach also extended globally, with two international candidates successfully completing their long-term fellowships—another sign of our growing relevance on the global eye care map.
- The academic partnership with Jain (Deemed-to-be) University marked a significant step forward in academic compliance and quality, with the new B.Optomtry program at Sankara College of Optometry, Bengaluru, now well underway.

Driving Automation and Digital Innovation

2024–2025 marked a powerful shift in how SAV delivers learning and skill-building—using the power of automation, simulation, and digital platforms.

A major leap this year was the launch of the HelpMeSee MSICS (Manual Small Incision Cataract Surgery) Simulator Training. This state-of-the-art, high-fidelity simulator transforms cataract training from a traditional learning curve into a safe, standardized, and outcome-focused experience—reducing surgical errors and empowering trainees with real-world readiness.

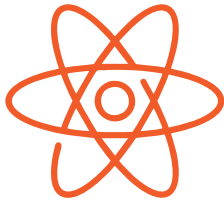

Our YouTube channel, part of SAV’s growing digital education ecosystem, crossed significant milestones in reach and engagement—offering open-access clinical demos, academic lectures, and innovations in eye care to professionals across India and beyond.

From digital assessment systems to paperless feedback and internal audits, our automation strategy continues to improve training quality, accountability, and responsiveness across programs.

Research & Innovation

Sankara Research Office: Building Systems for Scalable Impact

In 2024–2025, Sankara Eye Foundation India established the Sankara Research Office, a dedicated entity to streamline, support, and scale research across clinical, academic, and community platforms. Under the leadership of Dr. T.R. Raju, the office is fostering a robust research ecosystem focused on quality, impact, and visibility.

Operating under the 5Cs Framework, the office drives its strategic direction through:

- Centre of Excellence in Research – Ensuring compliance with global standards (ARVO, ICMR, DST) and securing research grants.
- Change in Practice – Translating research findings into clinical tools, protocols, and community interventions.
- Capacity Building – Enhancing scholarly output through mentorship, a proposed post-doctoral fellowship, and the launch of an indexed journal.
- Corpus – Developing a \$1 million research fund to fuel sustainable, investigator-led projects.
- Culture of Research – Embedding research values, ethics, and interdisciplinary collaboration across the organization.

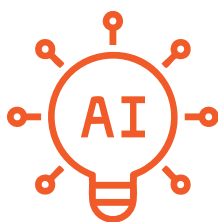

Ethics & Research Governance

To strengthen research quality and governance, Institutional Ethics Committees (IECs) at all Sankara units—except Varanasi, which is in process—have been registered with the Department of Health Research (DHR). The Bangalore IEC is now NABH certified, reflecting the highest standards in ethical oversight.

Sankara has also begun the process for DSIR (Department of Scientific and Industrial Research) recognition, which, once granted, will open access to government-funded research schemes, tax exemptions on R&D inputs, and official recognition as an in-house R&D unit—further advancing our capacity to innovate meaningfully.

Collaborative Research & AI Innovation

This year, Sankara collaborated with leading institutions including IIT Kanpur, IIT Madras, IIT Bhubaneswar, IIT Kharagpur, Manipal Institute of Regenerative Medicine (MIRM), Christ (Deemed to be) University, NIMHANS, Indian Institute of Science, Manipal Academy of Higher Education, and Forus Health. These partnerships enabled progress in Regenerative Medicine, Neuro-Ophthalmology, AI Applications, and Public Health.

SAV contributed to 16 AI-powered research projects, covering:

- Smartphone-based AI screening tools to support early detection of diabetic eye conditions in both clinical and outreach settings.
- A virtual reality-based therapeutic platform to aid in the treatment of binocular vision disorders such as amblyopia.
- An AI-powered patient counselling assistant that provides cataract patients with structured, accessible guidance before and after surgery.
- AI applications for corneal diagnostics using mobile-based imaging and deep learning algorithms to support point-of-care decision-making.

Sankara Innovation Centre

A major milestone this year was the inauguration of the Sankara Innovation Centre at Sankara Eye Hospital, Coimbatore—the country's first-of-its-kind Innovation Lab in eye care. Supported by G.D. Naidu Charities, the Centre is dedicated to advancing ophthalmology through cutting-edge research, indigenous technology development, and specialized training. It represents a strategic step toward building scalable, impactful solutions to improve accessibility and quality in vision care across India.

The Sankara Innovation Centre has developed a new keratoprosthesis (KPro)—an artificial cornea designed to restore vision in patients with corneal blindness. The device includes an optical stem, hydrophilic disc, and titanium backplate, engineered for optimal integration and visual outcomes.

Following successful in-vitro testing, the device was implanted in two patients, both of whom are recovering well with stable vision. Patent applications for the device components are currently underway, marking a significant step forward in indigenous innovation for complex corneal disorders.

Innovation Centre

Intellectual Property and Innovation

In 2024–2025, eight patents were filed under the Sri Kanchi Kamakoti Medical Trust, reflecting the growing strength of Sankara Academy of Vision's translational research efforts. These filings represent a diverse range of innovations focused on advancing both surgical and non-surgical care in ophthalmology. Innovations span through Novel imaging technologies, Advanced intraocular and keratoprosthesis implants, Innovative contact lens systems, Simulation-enabled vision assessment tools, Assistive devices for low vision care.

Grant of Patent Certificate

Granted Patent Recognition

We are proud to announce that Dr. Mahesh P. Shanmugam, from the Centre of Excellence in Vitreoretina & Ocular Oncology, Sankara Eye Hospital, Bengaluru, has been granted a patent by the Indian Patent Office for his innovation titled:

“A Device and Method for Treatment of Macular Edema of Various Causes.”

This breakthrough offers a novel approach that may significantly enhance treatment outcomes for patients suffering from macular edema, a leading cause of visual impairment. This recognition is a testament to the research excellence and problem-solving ethos that drives our clinical innovation efforts.

Training and Continuing Medical Education (CME)

In 2024–2025, Sankara Academy of Vision continued its commitment to knowledge exchange and professional development by organizing a wide range of Continuing Medical Education (CME) programs and training workshops across its network. Spanning topics from subspecialty clinical updates to research ethics, hospital infection control, and faculty development, these programs provided comprehensive learning opportunities for healthcare professionals at all levels.

Notable academic events included updates in glaucoma, cornea, retina, and comprehensive ophthalmology, as well as sessions on practice management, research methodology, and optometry education. Held across units in Bangalore, Guntur, Coimbatore, Jaipur, Anand, Ludhiana, and more, these sessions served as a vibrant platform for collaborative learning and the sharing of best practices.

Over 2,000 participants—including ophthalmologists, optometrists, DNB residents, fellows, allied health staff, and other external delegates—benefited from these 17 academic programs, reinforcing Sankara’s role as a hub for ongoing education and clinical excellence.

DNB & Fellowship Convocation – 3rd January 2025

Book of Brilliant Ideas – Volume 6

The Book of Brilliant Ideas is an annual compilation of published research articles contributed by teams across the Sankara Eye Foundation network. Showcasing the spirit of inquiry and commitment to academic excellence, this year's Volume 6 was ceremoniously released by our Founders, Dr. Radha Ramani and Dr. R.V. Ramani. The publications reflect the collaborative efforts of clinicians and researchers working to advance evidence-based practices in eye care.

SanQALP 2024 Highlights:

Elevating Standards in Quality and Safety

With a continued focus on excellence, SanQALP (Sankara Quality Assurance Learning Program) marked yet another year of unwavering commitment to quality and safety across all 14 units of Sankara Eye Foundation India. Our initiatives and collaborations reflect the ongoing pursuit of excellence, innovation, and patient-centered care through strategic leadership, system strengthening, and workforce empowerment.

SanQALP's efforts were aligned with the five critical dimensions that form the foundation of Deming Prize evaluation.

Leadership focus

Strengthening Quality Systems in collaboration with IFQM (Indian Foundation for Quality Management)

The leadership team from IFQM represented by Mr Soumita Bhattacharya (CEO and Director, IFQM) and others visited Sankara Eye Hospital Bengaluru and Sankara Eye Hospital Coimbatore to assess the current state of operations and strategize the next steps for implementing Total Quality Management (TQM) practices, with a focus on progressing toward the Deming Award.

SanQALP 2024: A Decade of Commitment to Quality and Excellence

The 10th SanQALP Workshop was conducted on 28th and 29th August 2024, centered around the theme 'Elevate, Excel, Engage'. This year's theme was thoughtfully selected to emphasize its significance in upholding and advancing quality standards across the organization.

To ensure the sessions were impactful and relevant, topics and speakers were carefully curated. Five external experts in the fields of quality and excellence were invited to lead sessions, share insights, and guide participants through interactive discussions. The workshop saw active engagement from Unit Heads, CMOs, Senior Consultants, Quality Champions, Vertical Leaders, and the MHQ team, fostering a collaborative environment for learning and growth.

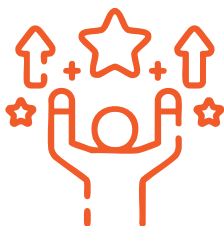

Strategic planning

Implementing 5S for safer, cleaner, and more efficient Vision centres

The 5S methodology was implemented across 39 Vision Centres to enhance workplace organization. As a proven tool for improving safety, minimizing waste, maintaining cleanliness, and standardizing processes, 5S supports long-term sustainability. Staff were trained to ensure the 5S practices are adhered to consistently.

Empowering organizations to drive continuous quality improvement

As part of our commitment to delivering high-quality eye care, Alumni hospital audits have been initiated to ensure that patients undergoing eye surgeries at these facilities receive safe and standardized services. Quality Officers conducted audits across 9 eye hospitals following a preplanned schedule.

The audits focused on key areas critical to patient safety and service quality, including the availability of firefighting equipment, proper signage, accurate documentation of clinical findings and treatments, medication safety, and adherence to infection control protocols.

By ensuring compliance with these essential standards, we continue to reinforce our commitment to delivering consistent, high-quality eye care across all partner hospitals.

Patient focus

Strengthening Infection control Practices

An online webinar on Infection Control Training, with a focus on Hand Hygiene and Biomedical Waste management, was conducted on 29th April 2024 by Dr. Sai Shruti Iyer (Head – Microbiologist and Infection control, Sankara Eye Foundation India). The program helped reinforce Infection control practices, which are essential to reduce and prevent hospital-acquired infections (HAIs).

Empowering Patient Voices: Launch of the PREMs Initiative

The PREMs (Patient Reported Experience Measures) project was launched in July 2024 as part of our efforts to enhance patient-centered care. This initiative serves as a valuable tool in capturing patients' self-reported experiences, offering critical insights to improve quality, safety, and overall service delivery.

A customized bilingual questionnaire was developed using a 5-point rating scale: Strongly Agree (5), Agree (4), Neutral (3), Disagree (2), and Strongly Disagree (1). The questionnaire was digitized and made accessible via a QR code displayed in each patient room. Staff were trained on the data collection process, and all units have been encouraged to review and act upon the feedback received from patients to drive continuous improvement.

Celebrating World Hand Hygiene Day (5th May 2024)

To raise awareness on importance of hand hygiene, trainings were conducted to encourage staff, and a short quiz was conducted to enhance the awareness and the importance of hand hygiene. Staff were asked to randomly demonstrate steps of hand hygiene, and if done correctly, were acknowledged by giving a chocolate. Availability of hand sanitizers / hand wash areas at all required places was also confirmed.

Empowering teams with Infection Control practices (May 2024)

A Certification Training Program on Hospital Infection Control was conducted at Sankara Eye Centre on 5th May 2024. The program featured interactive hands-on sessions, including group activities and a quiz. Both an internal expert and an external specialist in infection control served as speakers for the event.

The program received an enthusiastic response, with a total of 107 participants. Among them, 53 were registered from various hospitals across Indore, while 45 participants were staff from three units of Sankara Eye Foundation India-Anand, Panvel, and Indore.

Driving Efficiency: Lean Management Awards for Patient Safety Week 2024

To mark Patient Safety Week on 17th September 2024, units were encouraged to initiate lean management projects using the SMART tool (Specific, Measurable, Achievable, Relevant, and Time-bound) to reduce waste and optimize workflows. Among the 13 participating units, the Coimbatore unit won the 1st prize, Guntur secured the 2nd prize, and the Jaipur and Indore units were awarded the 3rd prize.

Infection Control week (14th to 19th Oct 24)

Infection control week was celebrated by conducting various activities around the theme - Move the needle on IPC by breaking the chain of infection.

Global Handwashing day

On 15th Oct 24 was celebrated with the theme : Each one – Teach one where each staff teaches another staff how to perform hand hygiene.

Internal CPHIC training programs

The training programs were conducted in Jaipur (28.07.2024), Bangalore (23.02.2025), and Coimbatore (09.03.2025) with an aim to reduce the risks of infections and reinforcing the infection control practices such as hand hygiene, BMW, OT protocols, sterilization and disinfection practices.

National Safety Week

The National Safety Week activity, held on 4th March 2025, focused on the theme "Enhancing the Safety of Everyone Around Us." Staff were encouraged to propose and implement innovative ideas aimed at improving safety across the organization and submit the same using Kaizen form.

Workforce Management

ACLS training for strengthening Emergency care skills

As part of our ongoing commitment to continuous learning, an Advanced Cardiac Life Support (ACLS) training was conducted by the American Heart Association (AHA) in Bangalore from 16th to 18th May 2024. A total of 25 staff members participated, including two representatives from each unit—a mix of GNM/BSc nurses and consultants, preferably from the Retina department. The program aimed to enhance staff confidence and competence in managing emergency situations effectively.

Empowering staff with ACE training: Advancing sterilization and compliance standards

To reinforce sterilization protocols and strengthen infection control practices, the ACE (Awareness, Excellence, and Compliance) course was introduced. This program was developed by CAHO (Consortium of Accredited Healthcare Organizations) in collaboration with 3M, focusing on elevating standards in clinical safety.

Between August and September 2024, a total of 52 staff members successfully completed the ACE training course across various units.

Prepared for emergencies: BLS certification for Varanasi unit staff

A Basic Life Support (BLS) certification course was conducted for 40 staff members from the Varanasi Unit by the Indian Academy of Paediatrics (IAP) on 21st October 2024. The course aimed to enhance staff preparedness in emergency situations, improving their skills in CPR and choking relief.

Knowledge Beyond Boundaries

Dr Saishruti Iyer (Head – Microbiology and Infection control, SEFI) was invited as a faculty for the Advanced Hospital Infection Control Training program at Care Hospitals Hyderabad. Dr Saishruti shared her expert insights and enlightened the audience with Infection control measures and enhancing patient safety.

Dr Geeta Fulari (DGM – Quality Assurance, SEFI) was invited as a guest speaker at Rakon India Pvt. Ltd. on occasion of World Quality Month in Nov'24. In her address, she shared insights into the quality improvement journey at Sankara Eye Hospitals India, with a special focus on the application of Design thinking as a tool for innovation and problem-solving.

Participation as Jury Member at National Events

Dr Geeta Fulari (DGM – Quality Assurance, SEFI) served as a jury member for the QIMPRO-CAHO Awards 2024, recognizing excellence and innovation in Healthcare Education and training. She also contributed her expertise as a Jury member for the Pitchfest for Startups at the IISc Medical School Foundation Event in Bengaluru in Oct'24, supporting and evaluating pioneering healthcare innovations led by emerging entrepreneurs.

Results

Driving compliance and excellence through Accreditation and Certification standards

We have ensured that all our hospitals consistently meet the standards set by healthcare quality accreditation bodies. This ongoing commitment has not only strengthened our systems but also fostered a culture of continuous quality improvement and patient safety across all units. Over the past year, under the guidance of SanQALP (Sankara Quality Assurance Learning Program) and the dedicated efforts of our Quality Champions, all hospitals have maintained compliance with NABH (National Accreditation Board for Hospitals & Healthcare Providers) standards. Units at Anand, Coimbatore base and city center, Kanpur, Krishnankovil and Ludhiana are NABH entry level certified.

Units at Bangalore, Guntur, Indore, Jaipur, Panvel, Shivamogga are NABH certified. Units at Bangalore and Coimbatore are also ISO certified. Accreditation preparations are actively underway for both Hyderabad and Varanasi units.

Academic Presentations – 24-25:

Allergic and infective conjunctivitis; Dr. S. Visweswaran; 2024

Dissimulation; Dr. Divyansh; RETICON 2024 – Chennai;

Surgical challenges in vr; Dr. Divyansh Mishra; RETNET 2024;

Types Of Approaches In Corneal Foreign Body Removal (Poster); Dr. Shaeza Samreen; Mid-Term AIOS Dehradun 2024; Best Physical Poster In Trauma At Mid-Term AIOS Dehradun 2024;

AIOS J.S. Mahashabde Award For Best Paper In Community Ophthalmology, Teleconsultation – Ophthalmology Reaching Every Nook And Corner (Delegate Paper Presentation); Dr. Ankeeta Thali; Community Ophthalmology Session, AIOC 2024, Kolkata; 14th–17th March 2024

Comparison Of Angle Parameters In Normal, PACD And POAG By Pentacam And Correlation With Gonioscopy; Dr. Kajal Priya; Mid AIOS 2023; Free Paper Presentation

Pseudophakic Pupillary Block: Two Different Scenarios; Dr. Kajal Priya; Mid AIOS 2024; Free Paper Presentation

Role Of Gas + TPA In Submacular Haemorrhage; Dr. Simakurthy Sriram; VRSI 2024; 06/12/2024; Paper Presentation

A Curious Case Of Poor Visual Improvement In The Presence Of Normal Anatomy Post Vitrectomy For Retinal Detachment Secondary To Giant Retinal Tear; Dr. Simakurthy Sriram; VRSI 2024; 06/12/2024; Poster Presentation

Vascular Occlusion; Dr. Simakurthy Sriram; Ifocus, PG Teaching Programme; 15/06/2024

Surgical Outcomes Of Acute Acquired Comitant Esotropia – A Multicentric Study; Dr. Keerthi M. Kartha; SPOSIVUE 2024; 7th–8th December 2024; Delegate Paper Presentation

Rare Cases Of Disc Swelling In Children – Case Series; Dr. Keerthi M. Kartha; SPOSIVUE 2024; 7th–8th December 2024; Delegate (Paper) Presentation

Iris Cyst With Cataract In Paediatric – Video Presentation; Dr. Keerthi M. Kartha; SPOSIVUE 2024; 7th–8th December 2024; Video Presentation

Dissimulation; Dr. Divyansh K Mishra; RETICON 2024; 7th April 2024; Faculty Presentation

Masquerades Of Quiescent MNV; Imaging Conundrums; Dr. Divyansh K Mishra; RIC – Trivandrum; 26th–28th July 2024; Faculty Presentation

Retinal Detachment With CR Coloboma; Dr. Divyansh K Mishra; Delhi Retina Meet 2024; 30th August – 1st November 2024; Talk (Faculty Presentation)

VRSI PAT Survey Retinal Detachment; Dr. Divyansh K Mishra; VRSI 2024; 6th–8th December 2024; Scientific Committee – Organizer, Faculty, Presenter

Endophthalmitis Masquerades; Dr. Divyansh K Mishra; ARISE 2025; 21st–23rd February 2025; Faculty – Presenter

Comparison Of Retinal Microcirculation Alterations Using Octa In Amblyopia And Anisometropic Amblyopia; Dr. Kajal Bansal; SPOSI Nagpur & AIOC Delhi

Fixing The Shutter And The Lens Together!; Dr. Shreyas Rajesh Lohiya; APAO-AIOS 2025, Delhi (Video Presentation)

Interferon Alpha: Boon In The Management Of Ocular Surface Squamous Neoplasia (OSSN); Dr. Shreyas Rajesh Lohiya; APAO-AIOS 2025, Delhi (Poster Presentation)

Bilateral Phlyctenular Conjunctivitis In A Patient With Systemic TB; Dr. Bhakti Mehta; AIOS Mid-Term, Dehradun (October 2024, Physical Poster)

ROP SSTS (Retinopathy Of Prematurity – Sankara Skill Transfer System); Dr. Virangi Doshi; 2nd Prize, Under The Apple Tree – AIOC 2025

Sympathetic Ophthalmia – Case Of Early Presentation; Dr. Vaishnavi Mahajan; ACOIN 2024

Acute Idiopathic Enlarged Blind Spot Syndrome (Poster Podium Presentation); Dr. Kanchana Swathi Padma; AIOS-APAO 2025
Releasable Sutures In Glaucoma; Dr. Malleswari Medikonda; PG Update – Bangalore 2025

Academic Presentations – 24-25:

National Conference

Free Paper Presentation; Dr. Keerthi M. Kartha; SPOSIVUE Nagpur 2024

Free Paper Presentation; Dr. Keerthi M. Kartha; AIOC 2025

Comparison And Evaluation Of Retinal Microcirculation Changes Using Octa In Amblyopia And Anisometropic Amblyopia (Free Paper Presentation); Dr. Keerthi M. Kartha; SPOSIVUE Nagpur 2024

Exotropia Management (Talk); Speaker; SPOSI December 2024; Kavitha V

Analysis Of Congenital Nasolacrimal Duct Obstruction As A Risk Factor For Refractive Error (Paper); Presenting And Chief Author; SPOSI December 2024; Kavitha V

A Case Of MCCPD Syndrome (Interesting Case Presentation); Chief Author; SPOSI December 2024; Kavitha V

Evaluation Of Descemet's Detachment Based On AS-OCT In Manual SICS FP 1803 Hyde Park Session (Presenting Author); Dr Roopasree B V; APAO AIOS 2025, April 3-6, New Delhi

Decoding Itching And Watering In Different Scenarios - Instruction Course (IC 150), Settling The Little Ones In Children (Co Instructor); Dr Roopasree B V; APAO AIOS 2025, April 3-6, New Delhi

DSTC - Specular Microscopy; Dr Roopasree B V; APAO AIOS 2025, April 3-6, New Delhi

DSTC - Corneal Topography; Dr Roopasree B V; APAO AIOS 2025, April 3-6, New Delhi

SSTC - Corneal Cross Linking; Dr Roopasree B V; APAO AIOS 2025, April 3-6, New Delhi

SSTC - Corneal Suturing; Dr Roopasree B V; APAO AIOS 2025, April 3-6, New Delhi

SSTC - Penetrating Keratoplasty; Dr Roopasree B V; APAO AIOS 2025, April 3-6, New Delhi

SSTC - Descemet Stripping Endothelial Keratoplasty Donor Preparation; Dr Roopasree B V; APAO AIOS 2025, April 3-6, New Delhi
"Lens - A Window To Systemic Disease" FP1477 E Poster (Co Author); Dr Roopasree B V; APAO AIOS 2025, April 3-6, New Delhi

"Lens - A Window To Systemic Disease" FP1477 Poster Podium Presentation (Co Author); Dr Roopasree B V; APAO AIOS 2025, April 3-6, New Delhi

"Late Onset Reticular Corneal Edema Following Ripasudil Use" FP1884 Physical Poster (Chief Author); Dr Roopasree B V; APAO AIOS 2025, April 3-6, New Delhi

"Analysis Of Specular Microscopy Pre And Post CXL In Patients Of Keratoconus With Thin Corneas" FP1452 Free Paper (Co Author); Dr Roopasree B V; APAO AIOS 2025, April 3-6, New Delhi

Balancing Good Outcomes With Training Of Ophthalmologists; Speaker: Dr. Kaushik Murali; 18th Annual Conference Of The Vision 2020 India, July 2024

Uncorrected Refractive Errors - Challenges & Strategies To Address The Unmet Need; Panel Discussion Moderator: Dr. Kaushik Murali; 18th Annual Conference Of The Vision 2020 India, July 2024

Mass Screening & Charity Care, Benevolence Or Business Sense; Speaker: Dr. Kaushik Murali; All India Ophthalmological Society - Empower Practice Development Programme, February 2025

Paediatric Cataract: Management In A Community Ophthalmic Setting; Speaker: Dr. Kaushik Murali; 18th Annual Conference Of The Vision 2020 India, July 2024

Cataract Bot: Chatgpt Powered Generative AI Chatbot To Support Patients Undergoing Cataract Surgery; Dr. Kaushik Murali; Annual Conference Of The All India Ophthalmological Society 2024, March 2024; Presentation Type: Oral Presentation

Does Posture Matter? Novel VR Based Device To Measure Effect Of Posture On Accommodation & Vergence; Dr. Kaushik Murali; Annual Conference Of The All India Ophthalmological Society 2024, March 2024; Presentation Type: Poster

Cannula For Hydro Implantation Of IOL; Dr. Kaushik Murali; Annual Conference Of The All India Ophthalmological Society 2024, March 2024; Presentation Type: Video Presentation

National: Crisis Management, How To Protect Your Brand; Speaker: Dr. Kaushik Murali; All India Online PG Teaching Webinar, March 2025

Recent Advances In Intravitreal Agents; Dr. Devi Priya V; Coimbatore Society Of Ophthalmic Surgeons; 2024

Academic Presentations – 24-25:

State Conference

Medical Management Of Glaucoma; Dr. Balam Pradeep; Khammam Ophthalmic Society, Presenter Memento As Award Of Appreciation For Guest Lecture On Medical Management Of Glaucoma; Dr. Balam Pradeep; Khammam Ophthalmic Society

Role Of Octa In Retinal Capillary Haemangioblastoma (Case Presentation); Dr. Simakurthy Sriram; TOSCON 2024, 3rd Prize In Ramana Rao Grand Rounds At TOSCON 2024,

State Level Competitive Paper: Effect Of Glaucoma Medications On Lipid Layer Thickness In Patients With Newly Diagnosed Glaucoma; Dr. Pradeep Balam; KOSCON 2024

A Case Report Of Quadruple Surgery; Dr Pradeep Balam; KOSCON 2024

Finalist Of BC Sharma Gold Medal Award, Posterior Optic Buttonholing (POBH) In Extended Anterior Capsulorhexis In Pediatric Cataract (Free Paper); Dr. Amit Mohan; Rajasthan Ophthalmic Society Conference, Udaipur; 09/11/2024

Augmenting Inferior Oblique Anterior Transposition With Resection Of Muscle Belly In Large Dvds; Dr. Amit Mohan; Rajasthan Ophthalmic Society Conference, Udaipur; 2024; Poster

Dr. SK Sundaramoorthy Award For Best Paper In Refractive Surgery, Clinical Outcomes Of RIL - A "No Central Hole" Unique Model Phakic Intraocular Lens (Delegate Paper Presentation); Dr. Ankeeta Thali; Refractive Surgery Session, TNOA 2024, Chennai; 16th-18th August 2024

Drops And Folds - A Case Of Hypotony; Dr. Kajal Priya; BOSCON 2023; Case Presentation

3rd Prize In Ramana Rao Session, Role Of OCTA In The Management Of Retinal Capillary Haemangioblastoma (Delegate Paper Presentation); Dr. Simakurthy Sriram; TOSCON 2024; 12/07/2024

Optic Disc Swelling; Dr. Simakurthy Sriram; CME By Khammam Ophthalmic Society

Innovations In Imaging; Dr. Simakurthy Sriram; Hyderabad Retinal Society Meet; 22/12/2024

Hiding In Plain Sight; Dr. Simakurthy Sriram; PG Teaching Programme, Sadhuram Hospital; Date Not Specified

Demographic And Clinical Features Of Patients With Scleritis In An Indian Tertiary Eye Care Hospital - FP406; Dr. Apeksha V Shettigar; KOSCON 2024;

23/11/2024; Delegate (Free Paper) Presentation

Oral Steroids In RVO As A New Treatment Of Choice; Dr. Chinni Krishna Anusha; Retina Update 2024, JIPMER; 17th November 2024; Case Series Presentation

AI / Bottlenecks & Way Ahead!; Dr. Divyansh K Mishra; Rods & Cone's Summit; 23rd June 2024; Faculty Presentation

KOSCON 2024; Date: 22 Nov – 24 Nov 2024; Dr Divyansh K Mishra, EUREKA - INNOVATION – Presenter, Innovative Ways Of Diagnosis And Treatment For Retinal Disorders

KOSCON 2024; Date: 22 Nov – 24 Dr Divyansh K Mishra, RETINA SYMPOSIUM II – Presenter / Moderator, RD With Vitreoretinopathies – How To Tackle Differently

KOSCON 2024; Date: 22 Nov – 24 Dr Divyansh K Mishra, Karnataka Wants To Know – Presenter, Subclinical/Occult CNV On OCTA – I Will Observe

KOSCON 2024; Date: 22 Nov – 24 Dr Divyansh K Mishra, Oncology Session – Presenter / Co Chair, Melanoma Intraocular Tumors: Hints And Pointers

KOSCON 2024; Date: 22 Nov – 24 Dr Divyansh K Mishra, IC39 - A Stitch In Time Saves Nine – Presenter, Early Recognition Of Retinal Diseases: Clinical And Imaging Findings

Applied Genetics; Dr. Divyansh K Mishra; Basic Science And Research Methodology Course; 11th April 2025; Faculty - Talk

A Retrospective Study Of Ethambutol Induced Toxic Optic Neuropathy At A Tertiary Eye Care Centre In Middle India; Dr. Shreyas Rajesh Lohiya; MPSOS 2024, Bhopal

Interferon Alpha: Boon In The Management Of Ocular Surface Squamous Neoplasia (OSSN); Dr. Shreyas Rajesh Lohiya; MPSOS 2024, Bhopal (Poster Presentation)

Innovative Cannula For Hydroimplantation Of Iol; Dr. Harshita Hiran; KOSCON 2024 (24 November 2024, Video Presentation)

Meibomian Gland Morphological Changes Following Phacoemulsification And Msics – A Comparative Study; Dr. Harshita Hiran; KOSCON 2024 (23 November 2024, Paper Presentation)

Academic Presentations – 24-25:

State Conference

Evaluation Of Descemet's Detachment Based On As-OCT IN MSICS; Dr. Harshita Hiran; KOSCON 2024 (23 November 2024, Paper Presentation)

Diagnostic Case Challenge; Dr. Kelini Nitin Saolapurkar; Uvea Case Festival, Sankara Nethralaya, Chennai (22–23 February 2025, Case Presentation)

An Interesting Disguise Of Viral Ulcer As Post Pbk Secondary Bacterial Ulcer; Dr. Sneha Kukreja; JOSCON 2025

Alloslet: Rebuilding The Eye After Ossn Threat (Best Poster Award – 7th Annual Goa Dr. Shivohn Da Silva; Goa State Conference

Strabismus Evaluation; Dr. Palak Macwana; Telangana State Conference 2024

Setting Up Myopia Clinic; Dr. Palak Macwana; Telangana State Conference 2024

Naaion Update In Neuro-Ophthalmology (Instruction Course); Dr. Kanchana Swathi Padma; APOS State Conference 2024

Toxic Keratoconjunctivitis After Use Of Contaminated Ophthalmic Drops; Dr. Deergha Pareek; Jaipur Ophthalmology Society Conference 2025

Do's And Don'ts In Neuroimaging; Dr. Srinivasa Rao Nambula; APOS Tirupati 2024

Medical And Surgical Management In Glaucoma; Dr. Malleswari Medikonda; Glaucoma Overview 2024

Management In Glaucoma; Dr. Malleswari Medikonda; Guntur Ophthalmic Society - PG Case Presentations 2024

Pseudophakic Pupillary Block, Glaucoma Drainage Devices; Dr. Malleswari Medikonda; APOS State Conference 2024

Iop Spikes - Reasons And Management; Dr. Malleswari Medikonda; Guntur Medical College - Zonal CME 2024

Collagen Cross Linking: Cornea Update; Dr. Prabhu Vijayaraghavan; Keraventure 24, Aravind Eye Hospital Pondicherry 2024

Recent Trends In Management Of Keratoconus (Instruction Course); Dr. Prabhu Vijayaraghavan; TNOA 2024

Diagnosis Of Ectasia - The Clinching Indices; Dr. Prabhu Vijayaraghavan; CSOS 2024

Debate Optical Vs Immersion Biometers; Dr. Prabhu Vijayaraghavan; Phaco Refractive Decoded 2024

Cornea Conundrums For General Ophthalmologists (Panelist); Dr. Prabhu Vijayaraghavan; CME 2024

Anterior Score: A True Revelation (Refractive Surgery Session); Dr. Prabhu Vijayaraghavan; TNOA 2024

IC ON SICS, Pterygium, Neuro Ophthalmology; Dr. Madhuri Venigalla; APOS Tirupati 2024

Video On Dyes In Ophthalmology; Dr. Madhuri Venigalla; APOS Tirupati 2024

A Rare Coristoma In The Orbit (Poster Presentation); Dr. Usha M; KOSCON 2024

To Study The Prevalence And Risk Factors For Dry Eyes Among School Children (Rapid Fire Free Paper); Dr. Vishal; KOSCON 2024

Tackling Traumatic Cataract In Paediatric Eyes (Talk); Speaker; BOS Meet Bangalore July 2024; Kavitha V

Pediatric Refraction (Instruction Course); Chief Instructor; KOSCON November 2024; Kavitha V

Analysis Of Congenital Nasolacrimal Duct Obstruction As A Risk Factor For Refractive Error (Paper); Presenting And Chief Author; KOSCON November 2024; Kavitha V

Research In Ophthalmology - Art Of Manuscript Writing (Talk); Speaker; KOSCON November 2024; Kavitha V

Analysis Of Non Cycloplegic And Cycloplegic Retinoscopy Values In Children Of Present Life Style (Paper); Presenting And Chief Author; KOSCON November 2024; Kavitha V

Karnatak Wants To Know: Surgery For Infantile Strabismus – Why The Hurry??? (Talk); Speaker; KOSCON November 2024; Kavitha V

Current Concepts In The Management Of Infantile Esotropia – Where Are We Now?? (Instruction Course); Speaker, Co-Instructor; KOSCON November 2024; Kavitha V

State CME: Mastering Pediatric Refraction; Tackling Myopia Menace (Talk); Speaker; Belgaum Ophthalmic Association January 2025; Kavitha V Best Paper In Paediatric Ophthalmology; Awarded To Kavitha V; To Be Received Next Year

Evaluation Of Descemet's Detachment Based On AS-OCT In Manual SICS (FP 181); Dr Roopasree B V; KOSCON 2024, Nov 22-24, Udupi, Karnataka

Decoding Itching And Watering In Different Scenarios - Instruction Course (IC 17), Settling The Little Ones In Children (Co Instructor); Dr Roopasree B V; KOSCON 2024, Nov 22-24, Udupi, Karnataka

Analysis Of Specular Microscopy Pre And Post Corneal Collagen Crosslinking (CXL) In Patients With Keratoconus (KC) Having Thin Corneas [PGP35] PG Free Paper (Co Author); Dr Roopasree B V; KOSCON 2024, Nov 22-24, Udupi, Karnataka

LENS - A Window To Systemic Disease [PP268] Physical Poster; Dr Roopasree B V; KOSCON 2024, Nov 22-24, Udupi, Karnataka

Meibomian Gland Morphological Changes Following Phacoemulsification And Msics - A Comparative Study [FP281] (Co Author); Dr Roopasree B V; KOSCON 2024, Nov 22-24, Udupi, Karnataka

Analysis Of Congenital Nasolacrimal Duct Obstruction As A Risk Factor For Refractive Error [FP306] (Co Author); Dr Roopasree B V; KOSCON 2024, Nov 22-24, Udupi, Karnataka

Spectacle Correction Following Cataract Surgery; Speaker: Dr. Kaushik Murali; 43rd Annual Conference Of Karnataka Ophthalmic Society, November 2024

"Myopic Progression" A Burning Issue - How To Go About?; Instruction Course: Dr. Kaushik Murali; 43rd Annual Conference Of Karnataka Ophthalmic Society, November 2024
Latest Technology But Smart Economics?; Speaker: Dr. Kaushik Murali; 43rd Annual Conference Of Karnataka Ophthalmic Society, November 2024

Technology Advances In Amblyopia Management; Speaker: Dr. Kaushik Murali; 43rd Annual Conference Of Karnataka Ophthalmic Society, November 2024

Awards & Achievements (2024–25)

Award – Gold Award for Best Hospital in Ophthalmology at FE Healthcare Awards 2024 presented by Financial Express in May 2024 to Sankara Eye Hospital, Sankara.

The Half-Filled or The Half Empty? – published by Dr.Harshal Sahare, with co-authors, Dr.Supriya D. K, Dr.Vidyashree VA, Dr.Akanksha Pandit; from Sankara Eye Hospital, Shimoga; published in TNOA Journal of Ophthalmology Science and Research 2024;62:271.

An unusual case of bilateral conjunctival ulcer post dengue fever: A Case Report – published by Dr.Kanishk Khare, with co-authors, Dr.Anurag Kumar Kashyap, Dr.Akanksha Sinha, Dr.Puneet Johri; from Sankara Eye Hospital, Kanpur; published in Indian Journal of Ophthalmology Case Rep Apr 2024;4:390-1..

Orbital cellulitis with pan-ophthalmitis post conjunctivitis in the recent epidemic – published by Dr.Gulshan Barwar, with co-authors, Dr.Akshita Kaul; from Sankara Eye Hospital, Jaipur; published

in journal Indian J Ophthalmol Case Rep April 2024;4:356-8..

Efficacy of peribulbar bupivacaine at the end of surgery in the management of postoperative pain after scleral buckling – published by Dr.Sumanth, with co-authors Dr.Madhu Kumar, Dr.Ashok Kanakamedla, Dr.Pradeep Sagar, Dr.Konana Vinaya K; from Sankara Eye Hospital, Guntur; Published in Indian Journal of Ophthalmology 72(6):p 878-880, June 2024.

Can caterpillar cilia penetrate the retina – published by Dr.Nidhi Dubey, with co-authors Dr.Arptha Ramesh, Dr.Minija CK, Dr.Rajesh Ramanjulu; from Sankara Eye Hospital, Bangalore; published in Indian Journal of Ophthalmol Case Rep Apr 2024;4:497-9..

A unique case of VKH in HIV patient – published by Dr.Minija, with co-authors Dr.Arptha Ramesh, Dr.Minija CK, Dr.Nidhi Dubey; from Sankara Eye Hospital, Bangalore; published in journal Indian Journal of Ophthalmol Case Rep Apr 2024;4:502-4..

Psychological Impact of Glaucoma: Does it Affect Compliance and Disease Progression? – published by Dr.Nitya Raghu, with co-authors Dr.Nitya Raghu, Dr.Meena G Menon, Dr.Kaushik Murali, Dr.Gokul Ratakonda; from Sankara Eye Hospital, Bangalore; published in International Journal of Research and Innovation in Social Science (IJRISS) - ISSN No. 2454-6186 June 2024.

Comparision of Visual Outcomes and Complications in the Eyes Receiving primary retropupillary Iris Claw Intraocular lens and Solid Single Piece PMMA PCIOL placed in Ciliary Sulcus for Capsule Rupture – published by Dr.Prashant Dhand, with co-authors, Dr Manoj Gupta, Dr Ruchi Singh; from Sankara Eye Hospital, Ludhiana; published in journal International Journal of Scientific Research Volume - 13 | Issue - 06 | June - 2024.

Effect of Smart Phone on Accommodation and Vergence Response inBright and Dark Illumination with Different Positions – published by Ms.Vandana Kamath, with co-authors Ms.Monica Mareena , Ms.Diwakar Rao; from Sankara Eye Hospital, SCO BLR; published in journal Acta Scientific Ophthalmology (ISSN: 2582-3191).

Publications 2024-25

Comparison between opposite clear corneal incision versus toric intraocular lens in correcting astigmatism – Published by Dr.Priyamvada PV, with co-authors Dr. Dr.JK Reddy, Dr.Prabhu Vijayaraghavan, Dr.Mithun Thulasidas, Dr.Vandhana Sundaram; from Sankara Eye Hospital, Coimbatore; Published in Indian J Ophthalmol May 2024;72:1304-7..

Choroidal ganglioneuroma- An exceptionally rare choroidal tumor in a child – published by Dr.Shwetha Suryakanth, with co-authors, Dr.Shanmugam Mahesh P, Dr.Ramanjulu Rajesh, Dr.Mishra Divyansh Kailashchandra, Dr.Agrawal Surbhi; from Sankara Eye Hospital, Bangalore; published in Indian J Ophthalmol Case Rep Apr 2024;4:527-9..

Why scleral buckling is still relevant – published by Dr.Mahesh Shanmugam,; from Sankara Eye Hospital, Bangalore; published in journal Indian J Ophthalmol May 2024;72:615-6..

Chandelier Pearl – published by Dr.Shashidhar B, with co-authors Dr.Manmeet Singh, Dr.Sudhakar Potti; from Sankara Eye Hospital, Guntur; published in journal TNOA J Ophthalmic Sci Res June 2024;62:266-7..

Capsular Bag Distension Syndrome – published by Dr.Divya Sunil, with co-authors, Dr.Shalini S; from Sankara Eye Hospital, Bangalore; published in journal Delhi J Ophthalmol 2024;34:88-94. June 2024.

Multimodal imaging of solitary pigmented vitreous cyst – published by Dr.Deepika Makam, with co-authors, Dr.Mishra Divyansh Kailashchandra, Dr.Sriram Simakurthy; from Sankara Eye Hospital, Hyderabad; published in Indian Journal of Ophthalmology - Case Reports 4(2):p 604, Apr–Jun 2024.

Bilateral Posterior Ischemic Optic Neuropathy (PION) Post COVID Vaccination (COVISHIELD) in a Young Woman: A Rare Case Report – published by Dr.Lipika Mehra, with co-authors Dr.Gulshan Barwar, Dr.Jaswant Singh, Dr.S Visweswaran,; from Sankara Eye Hospital, Jaipur; published in journal Acta Scientific Ophthalmology (ISSN: 2582-3191), September 2024.

Fundus Autofluorescence in Posterior and Panuveitis-An Under-Estimated Imaging Technique: A Review and Case Series – published by, with co-authors Dr.Matthias M. Mauschitz, Dr.Markus Zeller, Dr.Pradeep Sagar, Dr.Suchitra

Biswal, Dr.Gabriela Guzman, Dr.Jan H. Terheyden, Dr.Carsten H. Meyer, Dr.Frank G. Holz, Dr.Carsten Heinz, Dr.Uwe Pleyer, Dr.Robert P. Finger, Dr.MaximilianW. M. Wintergerst; from Sankara Eye Hospital, Shimoga; published in journal Biomolecules 2024, 14, 515. <https://doi.org/10.3390/> April 2024.

Effect of High Myopia on the Visual Outcome Following Cataract Surgery – published by Dr.Summaiya Irshad, with co-authors, Dr.Manoj Gupta, Dr.Ruchi Singh Samuel; from Sankara Eye Hospital, Ludhiana; published in International Journal of Scientific Research Volume - 13 | Issue - 06 | June - 2024.

Visual Outcome in Patients with Primary Retropupillary Iris Claw Lens Implantation by Beginners in a Tertiary Center – published by Dr.Perna Singh, with co-authors, Dr.Prashant Dhand, Dr.Sharad Kumar Mishra; from Sankara Eye Hospital, Kanpur; published in International Journal of Scientific Research June 2024.

The Finch Or The Eyelash- A Masquerading Eye Trauma Case Report – published by Dr.Madhuri Venigalla, with co-authors Dr.Manmeet Singh,; from Sankara Eye Hospital, Guntur; published in IOSR Journal of Dental and Medical Sciences (IOSR-JDMS) May 2024.

The Relationship between Ischemic Optic Neuropathy and Internal Carotid Artery Dissection: A Systematic Review – published by Dr.Matteo Ripa, with co-authors, Dr.Neeraj Apoorva Shah, Dr.Chiera Schipa, Dr.Paola Aceto, Dr.Tommaso Donati; from Sankara Eye Hospital, Jaipur; published in Journal of Clinical Medicine Apr 2024, 13, 2486..

Modified tuck in endoimplant: A case report – published by Dr.Suganya Mani, with co-authors Dr.Jagadeesh K Reddy, Dr.Prabhu Vijayaraghavan, Dr.Vandhana Sundaram; from Sankara Eye Hospital, Coimbatore; published in journal Indian J Ophthalmol Case Rep April 2024;4:354-6..

Analysis of choroidal thickness, macular thickness, peripapillary retinal nerve fiber layer thickness, and macular vascular density in children with unilateral amblyopia using swept-source optical coherence tomography and their changes following occlusion therapy – published by Dr.Shrutika Bhimewar, with co-authors, Dr.V. Kavitha, Dr.M.Heralgi Mallikarjun, Dr.B.K.Pradeep Sagar; from Sankara Eye Hospital, Shimoga; published in Taiwan Journal of Ophthalmol June 2024;14:579-587.

Development of Dynamic Contrast Sensitivity Chart – published by Ms.Nikhita Jacob, with co-authors, Ms.Vandana Kamath, Mr.Sanjay B.N; from Sankara Eye Hospital, SCO BLR; published in British and Irish Orthoptic Journal, 20(1), pp. 165–170. DOI: July 2024.

The effect of 2% pilocarpine on depth of field in different time intervals among presbyopic subjects – Published by Mr.Ashith Tripathi, with co-authors, Mr.Sebin C Sebastian, Mr.Himanshu Yadav, Mr.Iqra Jamal Khan, Ms.Vandana Kamath; from Sankara Eye Hospital, SCO; published in journal Indian J Ophthalmol 0.4103/IJO.IJO_130_24 July 2024.

Exploring Parental Perspectives on Digital Screen-Based Binocular Vision Therapy as a mode of treatment for Children with Amblyopia: A Questionnaire-Based Study at a Tertiary Eye Care Center – published by Ms.Namratha Hegde, with co-authors, Ms.Nagaratna Myageri, Dr.Kaushik Murali, Dr.Aditya Goyal, Dr.Vidya C, Dr.Sowmya R, Ms.Kalika Bandamwar; from Sankara Eye Hospital, SCO BLR; published in African Journal of Biomedical Research 0.48047/AFJBS.6.Si4.2024.1296-1307 July 2024.

Combined intraocular and oculofacial surgeries – published by Dr.Saptagirish R, with co-authors Dr.Srushti Bagde, Dr.Shashidhar VS, Dr.Samya Mujeeb, Dr.Rajendra P Maurya; from Sankara Eye Hospital, Bangalore; published in Indian Journal of Clinical and Experimental Ophthalmology 2024;10(2):243–247.

Posterior medial canthal thermoplasty in facial palsy: A simplified technique – published by Dr.Shruthi Tara, with co-authors Dr.M. P. Pallavi, , Dr.Saptagirish Rambhatla; from Sankara Eye Hospital, Coimbatore; Published in The Pan-American Journal of Ophthalmology 6(3):91, July 2024. | DOI: 10.4103/pajo.pajo_38_24.

Two cases of unilateral pediatric proptosis: A diagnostic challenge – published by nan, with co-authors Dr.V.Shruthi Tara, Dr.M. P. Pallavi, Dr.Mithun Thulasidas; from Sankara Eye Hospital, Coimbatore; published in The Pan-American Journal of Ophthalmology 6(3):95, July 2024. | DOI: 10.4103/pajo.pajo_49_24.

A 270-degrees Banana Graft- a Case Based Learning – published by Dr.Hir Yogesh Soni, with co-authors, Dr.Bhargavi Lakshmi Kanakamedala, Dr.Manmeet Singh, Dr.Deeksha Gupta; from Sankara Eye Hospital, Guntur; published in IOSR Journal of Dental and Medical Sciences Volume 23, Issue 7, July 2024.

Short-term outcomes of Tanito microhook ab interno trabeculotomy combined with phacoemulsification in primary open-angle glaucoma – A pilot study – published by, with co-authors Dr.Ajita Sasidharan, Dr.Paraali Shah, Dr.Mithun Thulasidas; from Sankara Eye Hospital, Coimbatore; published in journal Indian J Ophthalmol July 2024.

Visual axis reopacification afterNd:YAG laser posterior capsulotomy – published by Dr.Paraali Shah, with co-authors Dr.Ajita Sasidharan, Dr.Mithun Thulasidas; from Sankara Eye Hospital, Coimbatore; Published in Indian J Ophthalmol Case Rep July 2024;4:684-6..

PFCL nightmare: Scleral rupture and novel use of gelatin sponge in repair – published by Dr.Payal Naresh Shah, with co-authors, Dr.Ramanjulu Rajesh, Dr.Shanmugam Mahesh P; from Sankara Eye Hospital, Bangalore; published in Indian Journal of Ophthalmology - Case Reports 4(3):p 614-615, Jul–Sep 2024..

Acute ellipsoid zone thickening: A sign of probable digoxin toxicity? – published by Dr.Pradeep Sagar, with co-authors, Dr.Sagar Pradeep, Dr.Shanmugam Mahesh P, Dr.Prabhakaran Parvathy, Dr.Biswal Suchitra; from Sankara Eye Hospital, Shimoga; published in Indian J Ophthalmol Case Rep July 2024;4:730-2..

Role of optical coherence tomography angiography in retinal tumors: A narrative review – published by Dr.Pradeep Sagar, with co-authors Dr.Mahesh P Shanmugam, Dr.Sriram Simakurthy, Dr. Devashish Dubey, Dr.Vinaya Kumar Konana, Dr.Rajesh Ramanjulu, Dr.Shwetha Suryakanth; from Sankara Eye Hospital, Bangalore; published in Indian J Ophthalmol July 2024;72:1082-90..

Management of Descemet Membrane Detachment: A Case Series Emphasizing the Use of Air Injection – published by Dr.Nilay Rajendra Dhore, with co-authors, Dr.Nisha Ahuja, Dr.Yurica Moirangthem, Dr.Priyanka Dhande, Dr. Rashi Kochar, Dr.Shivangi Bora, Dr.Vrushabh Malani; from Sankara Eye Hospital, Anand; published in journal African Journal of Biomedical Research. Vol. 27, No.1s (September) 2024.

Fallen Yet Beautiful – published by Dr.Mamata Gogineni, with co-authors, Dr.Anees Fathima, Dr.Sudhakar Potti; from Sankara Eye Hospital, Guntur; published in IOSR Journal of Dental and Medical Sciences (IOSR-JDMS) September 2024.

Topical three-drug combination in the management of pseudophakic cystoid macular edema – published by Dr.Siddharth Sane, with co-authors,

Dr.Prabhushanker M, Dr.Geetha Ganesan; from Sankara Eye Hospital, Coimbatore; published in Journal of Clinical Ophthalmology and Research, September 2024.

Frosted branch angiitis in a case of chronic kidney disease – published by Dr.Nafees Fathima, with co-authors, Dr.Sriram Simakurthy, Dr.Kusumanjali Nakkina; from Sankara Eye Hospital, Guntur; published in Digital Journal of Ophthalmology July 2024.

Bilateral developmental cataracts in a child with familial lipodystrophy – published by Dr.Sowmya R, with co-authors, Dr.Kirtika Jain, Dr.Simran Hundlani; from Sankara Eye Hospital, Bangalore; published in Indian journal of ophthalmology - case reports : July 2024.

Capsular bag distension syndrome with sulcus IOL acting as a seal – published by Dr.Manmeet Singh, with co-authors, Dr.Sudhakar Potti; from Sankara Eye Hospital, Guntur; published in Indian J Ophthalmol Case Rep July 2024;4:719-21..

Isolated Foveal Hypoplasia: A Case Series – published by Dr.Sowmya R Murthy, with co-authors, Dr.Anshupa Patnaik, Dr.Nitya Raghu; from Sankara Eye Hospital, Bangalore; published in Kerala Journal of Ophthalmol Aug 2024;36:191-3..

Volume measurement of the vitrectomised eye and its applications in practice – published by Dr.Surbhi Agrawal, with co-authors, Dr.Shanmugam P Mahesh, Dr.Mishra Divyansh Kailashchandra, Dr.Ramanjulu Rajesh; Dr.Ravishankar HN, Dr.Sagar Pradeep, Dr.Sahare Harshal, Dr.Suryakanth Shwetha; from Sankara Eye Hospital, Bangalore; published in Indian Journal of Ophthalmology 72(10):p 1501-1505, October 2024.

Management of 360° Peripheral Ulcerative Keratitis with Cataract in a One-Eyed: A Challenging Scenario – published by Dr.Manmeet Singh, with co-authors, Dr.Shashidhar Banigallapati; from Sankara Eye Hospital, Guntur; published in Journal of Cornea and Ocular Surface 2023;1:196-9., Nov 2024.

A rare complication: Orbital cellulitis with pan-ophthalmitis after cataract surgery – published by Dr.Gulshan Barwar, with co-authors, Dr. Neeraj Apoorva Shah, Dr.Shashya Agarwal, Dr.Atish Kumar; from Sankara Eye Hospital, Jaipur; published in

Indian Journal of Clinical and Experimental Ophthalmology Dec 2024;10(4):796–798 797.

Management of lid retraction-Bridge Mullerectomy – published by Dr.Uttara Pandit, with co-authors, Dr.Shruthi Tara V, Dr.Pallavi MP; from Sankara Eye Hospital, Coimbatore; published in journal TNOA J Ophthalmic Sci Res Dec 2024;62:497-8..

Efficacy Of Vitrectomy, Endolaser And Antivasular Growth Factors In The Management Of Neovascular Glaucoma – published by Dr.Kamala Kumari, with co-authors, Dr.Madhu Kumar, Dr.Jayamadhury; from Sankara Eye Hospital, Guntur; published in IOSR Journal of Dental and Medical Sciences Volume 23, Issue 12, Dec 2024.

Managing choroidal metastasis in a male patient with breast carcinoma”: A case report with review of literature – published by Dr.Renu Mohandas, with co-authors, Dr.Palanivelu Mahesh Shanmugam; from Sankara Eye Hospital, Bangalore; published in Indian J Ophthalmol Case Rep Nov 2024;4:942-6..

A rare case of secondary glaucoma complicated by Eisenmenger syndrome – published by Dr.Anusha Devi Reddy, with co-authors, Dr.Meena Gopinath Menon, Dr.Mahesh P Shanmugam; from Sankara Eye Hospital, Bangalore; published in Indian J Ophthalmol Case Rep Nov 2024 ;4:851-3..

Role of multimodal imaging in the diagnosis of choroidal neovascularization overlying a choroidal macrovessel – published by Dr.Pradeep Sagar, with co-authors Dr.Varsha A, Dr.Parvathy Prabhakaran, Dr.Payal Naresh Shah, Dr.Pagidimarri Divya, Dr.P Mahesh Shanmugam,; from Sankara Eye Hospital, Shimoga; published in journal Indian J Ophthalmol Case Rep Nov 2024;4:931-4..

Role of angiography in diagnosis of juxtapapillary melanoma – published by Dr.Pradeep Sagar, with co-authors Dr.P Mahesh Shanmugam, Dr.Chaithra Kakunje, Dr.Shubhra Sweta; from Sankara Eye Hospital, Shimoga; published in journal Indian J Ophthalmol Case Rep Oct-Dec 2024;4:1014..

A Comparative Study on Tear Film Analysis in Patients Undergoing Photorefractive Keratomileusis, Sub Bowman’s Keratomileusis, and Femtosecond-assisted Laser in situ Keratomileusis – published by Dr.Harika Reddy, with co-authors, Dr.B. Shashidhar, Dr.V.Haritha; from Sankara Eye Hospital, Guntur; published in journal Delhi J Ophthalmol Dec 2024;34:285-91..

From Crisis to Clarity: Retropupillary Iris-Claw Lens and Iris Cerclage Techniques for Posttraumatic Cataract Rehabilitation – published by Dr.Lakshita Maherda, with co-authors Dr.Nisha Ahuja, Dr.Karishma Dubey; from Sankara Eye Hospital, Anand; published in journal Cureus 16(12): e75416. DOI 10.7759/cureus.75416 Sep 2024.

Gift of Vision - Doorstep-to-Doorstep Outreach Eye Care Model, Sankara Model of Accessible and Affordable Eye Care, and its Impact on the Elderly – published by Dr.Vidhya Chandran, with co-authors Dr.Kaushik Murali, Mr.Bharath Balasubramanian,Dr.R V Ramani, Dr.Malavika Mani; from Sankara Eye Hospital, Bangalore; published in journal Indian J Public Health 2024;68:447-9. Sep 2024.

Brainstem Anesthesia and Cardiac Arrest Following Peribulbar Block: A Case Report and Systematic Review of the Literature – published by Dr.Matteo Ripa, with co-author, Dr.Chiara Schipa, Dr.Paola Aceto, Dr.Goutham Kanikaram, Dr.Neeraj Apoorva Shah; from Sankara Eye Hospital, Jaipur; published in Journal of Clinical Medicine, 13, 6572. <https://doi.org/10.3390/jcm13216572> November 2024.

From Wounds to Wonders: Healing Traumatic Corectopia through Vitrectomy Cutter – published by Dr.Karishma Dubey, with co-authors, Dr.Nisha Ahuja, Dr.Sanjana Shah; from Sankara Eye Hospital, Anand; published in International Journal of Science and Research (IJSR) ISSN: 2319-7064 December 2024.

Coexistence of choroidal osteoma, focal choroidal excavation, and choroidal neovascularization – published by Dr.Pradeep Sagar, with co-authors Dr.Akanksha Pandit, Dr.Shubhra Shweta, Dr.Pradeep B C, Dr.Varsha A; from Sankara Eye Hospital, Shimoga; published in Indian Journal of Ophthalmology - Case Reports 4(4):p 1006, Oct–Dec 2024..

Gas Versus Silicone Oil in the Surgical Management of Proliferative Diabetic Retinopathy; Intraocular Foreign Body with Secondary Branch Retinal Artery Occlusion – published by , with co-authors Dr.Baruch D. Kuppermann, Dr.Ashish Sharma, Dr.Lihteh Wu, Dr.Steven Bloom, Dr.Paulo Stanga, Dr.André Gomes, Dr.Gabriel Castilho, Dr.Divyansh Kailashchandra Mishra, Dr.Anjana Mirajkar, Dr.Manish Nagpal, Dr.Kourous A. Rezaei; from Sankara Eye Hospital, Bangalore; published in Slack Journals Ophthalmic Surgery, Lasers and Imaging Retina, (10):557–559 October 01, 2024.

Sixth nerve palsy post Covid treated with course of oral Steroids – published by Dr.Divya Caculo,

co-authors, Dr.Sowmya R Murthy, Dr.Ann Willy, Dr.Nishant, N; from Sankara Eye Hospital, Bangalore; published in Kerala Journal of Ophthalmol Dec 2024;36:270-3.

Lattice dystrophy- retroillumination Cover Photo Credits – published by Dr.Harshita Hiran, with co-authors Dr.Mallikarjun MH; from Sankara Eye Hospital, Shimoga; published in Indian Journal Ophthalmol Dec 2024.

Lacrimal irrigation before intraocular surgery: Where are we today – published by Dr.Akshay Gopinathan Nair; from Sankara Eye Hospital, Panvel; published in Oman Journal of Ophthalmol. 2024 Oct 24;17(3):311–312..

Effect of Prednisolone acetate eye drops on blood glucose profile in Indian population – published by Dr.Archana Bhat, with co-authors, Dr.Prajakta Paritekar, Dr.Umesh; from Sankara Eye Hospital, Bangalore; published in Journal of Clinical Ophthalmology and Research Jan 2025;13:57-60..

Outcome of Descemetopexy for Descemets Membrane Detachment Post Cataract Surgery – published by Dr.G.Lavanya, with co-authors, Dr Sharad Kumar Mishra; from Sankara Eye Hospital, Kanpur; published in International Journal of Scientific Research Volume - 14 | Issue - 01 | January - 2025.

Targeted focal laser photocoagulation of retinal capillary macroaneurysm in retinal vein occlusion related macular edema – published by Dr.Suchitra Biswal, with co-authors Dr.Parvathy Prabhakaran, Dr.Pradeep Sagar, Dr.Pradeep BC, Dr.Ravishankar H. N, Dr.Shubhra Sweta; from Sankara Eye Hospital, Shimoga; published in Indian J Ophthalmol Case Rep 2025;5:73-5. Jan 2025.

Case Report: central retinal artery occlusion in a 63-year-old man who is a chronic smoker – published by Dr.Ahraz Akram, with co-authors, Dr.Sudha; from Sankara Eye Hospital, Krishnankoil; published in Paripex -Indian Journal Research| O February - 2025 Volume - 14 | Issue - 02 | 5.

Integrating Corneal Collagen Crosslinking with Refractive Procedures (LASIK and PRK): A Comprehensive Review – published by Dr.Neelima Balakrishnan, with co-authors, Dr.Prabhu Vijayaraghavan, Dr.Vandhana Sundaram, Dr.Jagadeesh Kumar Reddy; from Sankara Eye Hospital, Coimbatore; published in journal Ophthalmology Research: An International Journal 20 (1):1-8. Jan 2025.

Descemet Membrane Scroll in Anterior Chamber Secondary to Forceps Delivery with a Remarkably Clear Cornea – published by Dr. Neelima Balakrishnan, with co-authors 1, Dr. Vandhana Sundaram², Dr. Jagadeesh Kumar Reddy³; from Sankara Eye Hospital, Coimbatore; published in International Journal of Science and Research (IJSR), ISSN: 2319-7064 January 2025.

Role of eye screening camp in detecting systemic diseases and promoting health-seeking behaviour in the rural population – A multi-centre study – published by Dr. Archana Bhat, with co-authors, Dr. Kaushik Murali, Dr. Prajakta Paritekar, Dr. Nafees Fathima, Dr. Jayamadhuri Gudimetla, Dr. Mithun Thulasidas, Ms. Likhitha K; from Sankara Eye Hospital, Bangalore; published in Journal of Family Med Prim Care Feb 2025;14:556-9.

A Typical Case of Iridocorneal Endothelial Syndrome – a Case Report – published by Dr. Alankrita Hazarika, with co-authors, Dr. Manoj Gupta, Dr. Ruminder Kaur, Dr. Ruchi Singh, Dr. Manmeet Singh; from Sankara Eye Hospital, Ludhiana; published in PARIPEX - Indian Journal of Research | Volume - 14 | Issue - 01 | January - 2025 |.

Effect of Cataract Surgery on Quality of life in patients with Pre-Senile Cataract – published by Dr. Preety Rekha Das, with co-authors, Dr. Manoj Gupta, Dr. Ruchi Singh; from Sankara Eye Hospital, Ludhiana; published in PARIPEX - Indian Journal of Research | Volume - 14 | Issue - 01 | January - 2025 |.

Exploring the ocular involvement in multiple myeloma: a comprehensive review of 70-year clinical studies – published by Dr. Matteo Ripa, with co-authors, Dr. Chiara Schipa, Dr. Paola Aceto, Dr. Neeraj Apoorva Shah; from Sankara Eye Hospital, Jaipur; published in journal International Ophthalmology Mar 2025 doi: 10.1007/s10792-025-03467-9..

Case Report-Multimodal Imaging of a Case of Butterfly Pattern Dystrophy – published by Dr. Rajesh R, with co-authors, Dr. Mahesh Shanmugam P, Dr. Sriram Simakurthy, Dr. Divyansh Mishra KC; from Sankara Eye Hospital, Bangalore; published in journal Vitreo Retinal Society - India Sep 2024.

Unusual ocular manifestation in Wolfram syndrome – published by Dr. Sowmya R Murthy, with co-authors, Dr. Mansi Mistry, Dr. Disha Agarwal; from Sankara Eye Hospital, Bangalore; published in Indian Journal Ophthalmol Case Rep Jan 2025;5:128-31..

Biosimilar Ranibizumab (Ranibeyes) Safety and Efficacy in the Real World: BRESER Study – published by , with co-authors Dr. Ashish Sharma, Dr. Frank G. Holz, Dr. Nilesh Kumar, Dr. David Sarraf, Dr. Seemantini Ayachit, Dr. Chitaranjan Mishra, Dr. Adnan Tufail, Dr. Debdulal Chakraborty, Dr. Aleksandra Rachitskaya, Dr. David Eichenbaum, Dr. Alay Banker, Dr. Nikulaa Parachuri, Dr. Ashish Kumar, Dr. Anat Loewenstein, Dr. Francesco Bandello, Dr. Taku Wakabayashi, Dr. Se Joon Woo, Dr. Baruch D. Kuppermann; from Sankara Eye Hospital, Coimbatore; published in Journal of VitreoRetinal Diseases 10.1177/24741264251322213 Feb 2025.

Tips and tricks for Pars plana vitrectomy in Rhegmatogenous retinal detachment for beginners – published by Dr. Gulshan Barwar, from Sankara Eye Hospital, Jaipur; published in Acta Scientific Ophthalmology Journal (ISSN: 2582-3191) Volume 8 Issue 2 February 2025.

Morphological analysis of lacrimal punctum using anterior segment optical coherence tomography in different age groups – published by Dr. Hasan Naz, with co-authors, Dr. Shruthi Tara, Dr. Jagadeesh K Reddy, Dr. Rajesh Prabu, Dr. Mithun Thulasidas; from Sankara Eye Hospital, Coimbatore; published in Indian Journal of Ophthalmol Jan 2025;73:205-9..

Malignant Glaucoma – Open Sesame – published by Dr. Patibanda Keerthi, with co-authors, Dr. Malleswari Medikonda, Dr. Srilakshmi Sikhakoli, Dr. Manmeet Singh; from Sankara Eye Hospital, Guntur; published in journal TNOA J Ophthalmic Sci Res Mar 2025;63:109-11..

Voices of Support

CSR Partner Testimonials

Shankara Eye Foundation (SEF) is a prominent NGO dedicated to providing preventive and primary eye care services to rural communities and needy patients. Their dedication towards the cause is exemplary. We are happy to note that INDO-MIM's contribution helped 3,960 needy individuals to gain sight through the free and affordable eye surgery programme of SEF in FY25 alone.

- CSR Desk, INDO- MIM

At ZF Coimbatore, we have had the honour of supporting Sankara Eye Hospital through our CSR initiatives, and time and again, we are deeply moved by their commitment to restoring vision and transforming lives.

Their service goes beyond just medical care – it is compassion in action. Every time we visit the hospital or hear stories of patients whose lives have been changed, we are reminded why we chose to partner with them. Their work with underserved communities, especially the rural outreach eye care program, is a shining example of what service to humanity truly means.

We are proud to walk alongside Sankara in their mission. Their dedication, transparency, and impact are unmatched. It is partnerships like these that make our CSR work meaningful and grounded in real change.

— CSR Team, ZF Coimbatore

Sankara Eye Foundation, USA: Vision 2030

March to a Million

Since its founding in 1998, Sankara Eye Foundation, USA (SEF, USA) has been steadfast in its mission to eradicate curable blindness in India by supporting Sankara Eye Foundation, India (SEF, India). What began with one hospital in Coimbatore performing 8,000 free eye surgeries annually has now grown into a national movement—over 447,000 free eye surgeries were performed in 2024–25 across 14 states through the network of Sankara hospitals and select partner institutions. Together, SEF, USA, and SEF, India, are advancing the shared Vision 2030 goal of one million free eye surgeries per year.

Empowering Infrastructure and Expansion

SEF, USA continues to fund major infrastructure and expansion projects that strengthen the free eye surgery capacities of Sankara India's hospitals and those of SEF, USA's other institutional partners. In 2024–25, SEF, USA, supported the construction of two major super-specialty hospital projects of SEF, India, besides other partner projects. These are:

- R Jhunjhunwala Sankara Eye Hospital, Varanasi (U.P.) – inaugurated by Hon. Prime Minister Narendra Modi in October 2024.
- Expansion of Sankara Eye Hospital, Guntur (A.P.), to be inaugurated on November 9, 2025, by Shri N. Chandrababu Naidu, the Honorable Chief Minister of Andhra Pradesh.

Together, the Sankara Eye Hospitals, along with SEF, USA's other partner hospitals, will add capacity to exceed 800,000 free surgeries annually by 2027, bringing the Vision 2030 goal closer to reality.

Support for RJ Sankara Eye Hospital, Patna, Bihar

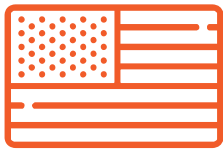

SEF, USA, will also support the RJ Sankara Eye Hospital in Patna, Bihar, the upcoming super-specialty hospital, which will serve millions of people in one of India's most under-served states.

Thought Leadership and Collaboration

At the 3rd March to a Million Seminar in Mumbai (May 2024), leaders from SEF, USA, and SEF, India, came together to reaffirm the commitment to expanding access to free eye care. As SEF, India Founder and Managing Trustee Dr. R. V. Ramani and SEF, USA Board Members highlighted, the movement is built on shared purpose, disciplined execution, and compassion. SEF USA also engages with mission-aligned partners who extend the reach of Sankara's service model to additional regions.

Expanding Support Across the U.S.

In 2024, SEF, USA established a new chapter in the State of Florida to raise awareness and support for its mission. Across the U.S., multiple fundraising events-including concerts, galas, and cultural celebrations such as the Annual Dandia Extravaganza in California-continue to unite thousands of supporters inspired by the gift of sight.

Mega Star Entertainment Events

SEF, USA, forged ahead with Vision 2030 goals for 2024-25 with several successful fundraisers and celebrity concerts. On June 23, Shreya Ghoshal wowed Southern California audiences at the 'All Hearts' Concert at the Dolby Theater. On June 29, the singer-composer trio, Shankar Ehsaan Loy, also gave a stellar performance in Dallas with their 'Kal Ho Na Ho' US concert.

Transparency and Trust

SEF, USA has earned the Charity Navigator 4-Star Rating for 14 years, placing it among the top 3 percent of U.S. nonprofits. It also maintains Candid's Platinum Seal of Transparency, underscoring SEF, USA's accountability and donor trust.

*"You may donate with your eyes closed-
so we can open more eyes."*

- Murali Krishnamurthy, Founder & Executive Chairman, SEF, USA.

Visitors Impressions:

Mr. H E Fesseha Shawel

Ambassador-Designate

Embassy of the Federal Democratic Republic of Ethiopia, New Delhi

I visited this Hospital and very much impressed by the community services you offer mainly for the poor and particularly for the kids. Excellent that you go for the needy at the schools and in the villages. A good lesson for the hospitals in Ethiopia. I want to further talk on the possibility of collaboration with Ethiopian hospitals

Mr. Sivasailam IAS (Retd)

Bangalore,

God's Own place: this!
Amazing, Inspirational. The entire place exudes cheer, confidence and satisfaction. Will love to be associated with the Institution in my own little way

Mr. Venkatesh Iyer

India Cricketer

I wish the whole team at Sankara Eye Hospital all success and urge them to constantly push towards excellence. One of the most heart warming experiences of my lifetime. The word charity has a very deep meaning and Sankara eye center redefines it. The service and the facilities are state of the art and assure better vision and healthier lifestyle. Cleanliness and hygiene are prioritized. Thanks to Dr.Ramani for being a catalyst to this amazing hospital and also a cornerstone to the eye care. Pleasure to be here

Dr. P. Rama Ravi,

MBBS,DGO, Nasaraopet

We came for my mother's cataract surgery. She is 93 years old. Reception, surgery was excellent.

Mr. Sanjay Datta

ICICI Foundation

Excellence personified in the noble profession of trying to address blindness and its related matters in eye care. Understood how passion, spirit of service and attention to process and constant learning and use of technology leads to quality outcomes for care of the most precious organ of the human body. Very noble initiative of Dr.Ramani and his team.

Mr. K. Annamalai Former IPS

When a man transcends their ego and need for recognition – true service begins. Sankara Eye Hospital is truly a world class Institution built from Coimbatore to the world. Service, Seva, Innovation, operations at a scale, continuous urge to expand into the unknown makes this Institution truly special.

I take this opportunity to thank the Chairman of this Foundation Shri S V Balasubramaniam Aiyaa, the selfless soul behind this modern miracle. Dr.Ramani and Dr.Radha Ramani and importantly to the whole team for showing us. Bharath with his age old imbued wisdom, what contribution we can make to the global humanity. For me, it was a humble moment to see so many passionate souls all assembled in one building with a single quest - to serve everyone irrespective of caste, creed, language and religion.

Dr. N. Pratap

Running Corporate Hospitals in Tenali & Vijayawada

My mother cataract surgery was done today by Dr.Sudhakar. My mother who is 74 years old and having glaucoma too has been visiting the hospital since 5 years. Utmost care and concern was provided for her by the doctor and staff here. That is why I selected this hospital for her cataract surgery. We are happy, wishing all the best for the centre.

Dr. K. Raja Veeraiah

Donor

I had great visit today, enjoying long discussion with Dr.Sudhakar. Surprised with the great program of the Institution.

Dr. Yagna Shukla

Chairperson NCAH Professions

Thank you for inviting me for convocation of optometry; I am impressed by the institution and the dedicated work being done here, my best wishes to all

Dr. Chenraj Roychand

Chancellor Jain (Deemed to be University)

Amazing humanity approach towards making world best place, serving the needy is god's work; all of you are angels and reaching hopes and giving the rite for betterment of the society. I am moved and touched by this kindness and humanity, as missionaries the whole campus is full of positive energy kudos to visionaries.

Mr. Madan Padaki

Founder & CEO 1bridge, Managing Trustee, Head held high foundation.

Very impressive facilities and wonderful work in serving the underprivileged! It's an honour to be part of the convocation ceremony, wishing more power to you.

Dr. R S Pundir,

Principal & Dean, Agricultural University, Anand, Gujarat

I have undergone cataract surgery in my left eye. My experience is wonderful. Expertise and facilities available are at par to that of best Medical Institutions. The hospitality of the staff extended is highly appreciable. Very economic compared to other Institutions. The Institute needs to be popularised for the wider benefit of the Society.

Mr.Praveen Chaudhary IAS,

District Collector, Anand

Visited Sankara eye hospital today for my checkup of my Father and Grand mother.

All staff are very courteous and patient-friendly. Entire Team is fully dedicated. I extend my best wishes to the hospital management, all other Doctors and Staff.

Dr. Namrata Sharma

Scientific Chairperson AIOS, Professor Dr RP Centre AIIMS New Delhi

Excellent organisation, my first visit at Sankara Eye Foundation, a complete eye opener for me, kudos to the excellent facility to both the community. Keep it up!

Mr. Rishi Raj Borah & Dinesh Chandra

Country Head, ORBIS internationals

We have been partners for last many years, we are really impressed to see the growth of this institution and delivering care to needy population.

It is really great to see the technological advancement at Sankara in improving access to quality eye health serving to the community. We are privileged to be partner of Sankara and look forward to many years of mutual partnership ahead!!

Independent Auditor's Report

Financials 2024 - 2025

Independent Auditor's Report

To

The Board of Trustees of Sri Kanchi Kamakoti Medical Trust

Report on the Audit of the Financial Statements

Opinion

1. We have audited the accompanying financial statements of Sri Kanchi Kamakoti Medical Trust ("the Trust"), which comprise the Balance Sheet as on March 31, 2025, the Statement of Income and Expenditure and Statement of Fund Flow for the year ended, and notes to the financial statements, including a summary of significant accounting policies.

2. In our opinion and to the best of our information and according to the explanations given to us, the aforesaid financial statements give a true and fair view of the financial position of the Trust as on March 31, 2025 in conformity with the accounting principles generally accepted in India:

(a) in the case of the Balance Sheet, of the state of affairs of the Trust as on March 31, 2025; and

(b) in the case of the Income and Expenditure Account, of the Excess of Income over Expenditure for the year ended on that date;

(c) In case of the Statement of Fund flow, of the Fund flow for the year ended on that date.

Basis for Opinion

3. We conducted our audit in accordance with the Standards on Auditing (SAs) issued by ICAI. Our responsibilities under those standards are further described in the Auditor's responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Trust in accordance with the Code of Ethics issued by ICAI and we have fulfilled our other ethical responsibilities in accordance with the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Responsibilities of Management and Those Charged with Governance for the Financial Statements

4. Management of the Trust is responsible for the preparation of these financial statements that give a true and fair view of the state of affairs and results of operations of the Trust in accordance with the accounting principles generally accepted in India. This responsibility includes the design, implementation and maintenance of internal control relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

5. In preparing the financial statements, management is responsible for assessing the Trust's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Trust or to cease operations, or has no realistic alternative but to do so.

6. Those charged with governance are responsible for overseeing the Trust's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

7. Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with SAs will always detect a material

misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

8. As part of an audit in accordance with SAs, we exercise professional judgement and maintain professional skepticism throughout the audit. We also:

- (a) Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- (b) Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Trust's internal control.
- (c) Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- (d) Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Trust's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Trust to cease to continue as a going concern.

9. We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

Report on Other Requirements

10. Further, we report that:

- (a) We have obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purpose of our audit.
- (b) In our opinion, proper books of account have been kept by the Trust so far as appears from our examination of those books.
- (c) The Balance Sheet and Statement of Income and Expenditure dealt with by this Report are in agreement with the books of account.

Sri Kanchi Kamakoti Medical Trust

Accounting Policies and other Notes – FY 2024-25

Note 1 - SIGNIFICANT ACCOUNTING POLICIES

1. Basis of Accounting

The financial statements are prepared under historical cost convention and on mercantile basis and in accordance with applicable accounting standards laid down by the Institute of Chartered Accountants of India and normally accepted accounting principles.

The accounting is on the basis of a going concern concept.

2. Fixed Assets

Fixed assets are stated at cost of acquisition, including attributable cost for bringing the assets to its working condition for its intended use.

Fixed assets received as contributions in kind are stated at the cost incurred by its donor and other expenses to its working condition for its intended use.

Depreciation is calculated using the straight-line method over the estimated useful lives of the fixed assets as determined by the management. The loss or profit on disposal of asset is recognized in the year when the asset(s) is disposed of or the asset is condemned.

3. Investments

Investments are in the form of fixed deposits with Scheduled banks.

4. Inventories

Inventories consist of Medicines, surgical items, lens, optical, etc., Valued at cost.

5. Liabilities

Liabilities acknowledged as debt are taken into account, while contingent and disputed liabilities if any, are not provided for and are disclosed by way of a note.

6. Provisions

Provision is recognized when an enterprise has a present obligation as a result of past event and is probable that an outflow of resources will be required to settle the obligation, in respect of which a reliable estimate can be made. Provisions are determined based on management estimates required to settle the obligations at the balance sheet date. These are reviewed at each Balance sheet date and adjusted to reflect the current management estimate.

7. Revenue Recognition

Hospital service income, reflected is at gross amount as reduced by rebates/discounts and other concessions granted.

Income due to the hospital by way of reimbursement from District Blindness Society of the respective States is accounted on actual receipt basis.

8. Foreign Currency Transaction

Foreign currency transactions are recorded at the rates prevailing on the date of transaction.

9. Research and development

Capital expenditure, if any, on research and development is treated in the same way as expenditure on fixed assets. The Revenue expenditure if any, on Research and Development is written off in a year in which it is incurred.

10. Retirement Benefits

- a) Retirement benefits such as periodical contribution to provident and Employees state insurance being defined contribution plans are charged to revenue on payment that had become due.
- b) The Employee's gratuity is a defined benefit plan. The present value of the obligation under such plan is determined based on the actuarial valuation using the projected unit credit method which recognizes each period of service as giving rise to an additional unit of employee benefit entitlement and measures each unit separately to build up the financial obligation. The trust has an employee gratuity fund managed by trustees through Life Insurance Corporation of India.
- c) Liability towards gratuity is provided and contributed to the trustees of the approved fund on the basis of actuarial valuation made and reported by actuaries of the Life Insurance Corporation of India as at the end of the year.

11. Leave benefits

Leave benefits earned by the eligible employees being accounted as and when it is paid to the employees.

12. Contingent liabilities

There are no contingent liabilities pending as 31/03/2025 in account of

- (a) Legal cases
- (b) Pending taxes or any other statutory liability
- (c) LC discounted, except bank Guarantees provided for Rs.25,81,870 for various Hospital operations.

13. Secured loans

- a) Loan Payable on demand of Rs. 95,930 from Canara bank is secured by mortgage of Immovable properties situated at 16A, Sankara Eye Hospital St, Sathy Road, Coimbatore
- b) Loan from Canara bank amounting to Rs. 35,17,18,920 is secured by way of lien/pledge on fixed deposits of Rs. 45,26,39,612 held with the bank.

14. Previous year figure

- a) Previous year's figures have been re-arranged and re-grouped wherever necessary so as to make them comparable with those of the current year
- b) Figures have been rounded to the nearest Rupee.
